

Md Nasim Anjum

Senior Full-Stack Developer · TypeScript · Node.js · React · AWS

Manchester, UK · +44 7932 852034 · nasimanjum1995@gmail.com · linkedin.com/in/nasim-anjum · github.com/nsmajm

PROFESSIONAL SUMMARY

Senior Full-Stack Developer with 8+ years of experience delivering secure payment orchestration systems, KYC/KYB/AML compliance platforms, conversational AI chatbots, and scalable e-commerce platforms for fintech and RegTech companies. Strong background in payment gateway integration, PCI DSS-compliant transaction processing, payment routing, RESTful API design, database modelling, and modern React/Vue front ends. Proven record of shipping complex products end to end, from architecture and development through deployment and production support.

TECHNICAL SKILLS

Languages	TypeScript, JavaScript (ES6+), PHP, SQL, HTML, CSS
Backend	Node.js, NestJS, Express.js, AdonisJS, Laravel, Lumen, Socket.IO, RESTful APIs, WebSockets, Web SDKs
Frontend	React.js, Next.js, Vue.js, Redux Toolkit, React Query, Tailwind CSS, Ant Design
Data	MySQL, MariaDB, Redis, RabbitMQ
AWS	EC2, S3, IAM, Route 53, ElastiCache, SES, Amplify, CloudFormation
DevOps	Cloudflare, DigitalOcean, Docker, CI/CD pipelines, Git, Jira, Trello, ClickUp
Domain	Payment orchestration · gateway integration · PCI DSS · Google Pay / Apple Pay · KYC / KYB / AML · conversational AI · multi-tenant SaaS · NLP · e-commerce

PROFESSIONAL EXPERIENCE

Senior Software Engineer Paymid Limited

Nov 2025 – Present

Nicosia, Cyprus (Remote)

- **Payment gateway** integrations with 15+ global and regional payment gateways in a PCI DSS-compliant transaction processing environment.
- Implemented 10+ Google Pay and Apple Pay wallet integrations across merchant checkout flows.
- Developed the Payment Routing Builder: intelligent gateway selection with automated failover, load balancing, and transaction optimisation.

Software Engineer Cocomply Limited

Mar 2024 – Oct 2025

Manchester, UK

- Delivered five core compliance platform features end to end: SoW Analysis, Form Builder, Workflow Builder, Vendor Audit Analysis, and self-hosted Metabase analytics deployed via AWS CloudFormation.
- Aggregated multiple third-party APIs behind a unified service layer and delivered AI-powered NLP insights on top of compliance data.
- Drove the platform transformation from single-tenant to multi-tenant SaaS architecture.
- Owned features end to end: requirements, architecture, implementation, testing, deployment, and production support.

Software Engineer **Cellbunq Systems AB**

Mar 2023 – Mar 2024

Jarna, Sweden

- Developed a centralised KYB / KYC / AML compliance dashboard consolidating verification checks and client risk data.
- Built an Express onboarding journey that streamlined client verification and reduced onboarding friction.
- Led code-reusability initiatives across the platform, removing duplicated logic and accelerating feature delivery.

Software Specialist **SSL Wireless**

May 2021 – Feb 2023

Dhaka, Bangladesh

- Led development and integration of iBot, an omni-channel conversational AI chatbot deployed across Facebook Messenger, WhatsApp, Telegram, and web chat.
- Engineered real-time conversation synchronisation across channels with live handover to human agents.
- Built RESTful APIs and a Web SDK enabling clients to embed and configure chatbots on their own websites.

Software Engineer **Woow Global Inc**

2019 – 2021

Dhaka, Bangladesh

- Integrated global e-commerce marketplaces (Amazon, Alibaba, AliExpress, 1688) into a cross-border procurement platform.
- Implemented multi-currency payment gateways (Stripe, Authorize.net, SSLCommerz) and shipping carrier integrations (DHL, FedEx, UPS, USPS).
- Managed server infrastructure and CI/CD pipelines for continuous delivery.

Web Application Developer **eGeneration Ltd**

2018 – 2019

Dhaka, Bangladesh

- Developed the company website and client web applications; resolved defects and improved application performance.

KEY PROJECTS

- **Paymid.com** — payment orchestration platform unifying 700+ payment channels across 200+ currencies.
- **Cellbunq.com** — global KYB / KYC compliance platform drawing on 10,000+ data sources.
- **Chatshop.us** — conversational commerce platform, delivered as project lead.
- **WoowGlobal.com** — cross-border e-commerce platform, delivered as team lead.

EDUCATION

BSc in Software Engineering

2015 – 2018

American International University Bangladesh (AIUB), Dhaka

CERTIFICATIONS & LANGUAGES

- Frontend Developer (React) Certificate.
- Bengali (native), English (fluent).
